the most important vitamin for vegans	<b>VITAMIN B12</b>	boost nervous system, fertility and healthy bones
clinically proven, highly bioavailable iron	<b>IRON</b>	energizer of metabolism, prevent anemia and symptoms such as fatigue and increased immune function
bioavailable organically bound to yeast	<b>SELENIUM</b>	harmonise hormonal system, healthy nails, hair and skin
sun vitamin	<b>VITAMIN D3</b>	support immune function, mood, memory, teeth, bones and muscle
bioavailable organic form	<b>ZINC</b>	healthy nails, hair and skin, immunity booster
high quality	<b>Veri-te</b> <small>RESERVATION</small>	healthy aging through bone health, cardiovascular health, blood glucose control, healthy cognitive function, skin youthfulness and oral health

## WHY THESE VITAMINS AND MINERALS?

These elements naturally appear in animal products,  
like meat, eggs, fish meat, or milk.

**Vegan essential helps vegans & vegetarians  
to complete a healthy and balanced diet.**
